

Seventh Grade Science Syllabus

Mrs. Webber
Desiree.Webber@myoneclay.net

GREETINGS! It is my honor to be your guide as we continue your journey into the wonderful world of science. We will be focusing on topics ranging from our place in space down to the DNA that makes you...you! We will also be looking at the structure of our world, its history, and how we are impacting it.

Studying science is a big step in your educational careers, and it is an exciting time. But it also requires more on your part. You will be expected to put in at least 20 minutes a day outside of class. You may want to put in additional time before tests and quizzes to make sure you are prepared.

I am looking forward to a great year.

SAFETY FIRST! This class includes a laboratory component. You will be required to have a signed Student Safety Contract on file. Improper behavior and/or disregard for safety procedures will result in dismissal from the laboratory and a discipline referral written (safety violation).

CLASS RULES:

1. Do not do anything that endangers the health and safety of yourself or others (ex. not following lab protocols, not using equipment properly, adjusting gas lines, etc.).
2. Do not do anything that can interfere with the education of yourself or others (**ex. cheating** copying assignment/test answers), not coming prepared to class, disrupting class, etc.).
3. We show respect for each other, our instructor, and our classroom at all times.

TEXTBOOK	<u>HMH Florida Science</u> . A classroom set will be available.	
MATERIALS	<ul style="list-style-type: none">● 1" Binder● 2 Notebooks	<ul style="list-style-type: none">● Pen/Pencil and Highlighter● Colored Pencils● Calculator
